SHU AH

SHURAA: A HISTORY

Shuraa Management & Consultancy started out as a humble typing center in Dubai in 1997 by Saeed Khalifa Mohammed Al Fuqaei, a prominent Emirati business figure in the region. During this period, Dubai was attracting an ever-increasing number of foreign entrepreneurs and investors from across the globe.

A foreign country and a foreign language meant that many promising entrepreneurs were facing difficulties understanding the legal framework and procedures of company formation in Dubai and the UAE. There was also a serious lack of professional business consultancies and service providers in the country.

Foreseeing the potential of this untapped segment, Saeed Khalifa started Shuraa Business Setup in 2001. The core business vertical of Shuraa Management & Consultancy, Shuraa Business Setup helps local and international businesses set up a base in the UAE.

Since its inception in 2001, Saeed has continued to add to his investment portfolio, to build, what is today, the Shuraa Group.

OUR OBJECTIVES

WHY WILL YOU NEED MANDATORY COMPANY AUDITING?

Shuraa conducts reliable External Auditing to maintain accurate records of your company's financial statements. We help arrange financial records depending on Mainland and Free Zone jurisdictions.

It is recommended to get annual audits conducted to ensure a clear financial picture of your company and submit precise tax reports to the authorities. The implementation of Corporate Tax in the UAE makes it necessary for companies to undergo an audit to avoid errors and fines.
